THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON 7, ALBERTA

MARCH 9, 1972

Approval was given to the detailed proposal for Household Economics II by the Board of Governors at its meeting Friday, March 3. However, because of constraints on the capital budget further planning for the building has been suspended until the necessary approvals and budget allocations can be given. The new building is intended for the corner of 112 Street and 87 Avenue, connecting with the existing Household Economics Building and the Education Centre. It will accommodate the school's three divisions of Food and Nutrition, Clothing and Textiles, and The Family, as well as providing teaching and study space for other faculties and departments. Prime Consultant is Edmonton architect DONALD PINCKSTON.

## BOARD OF GOVERNORS

By FOLIO Staff

The University Board of Governors and its Executive Committee met Friday, March 3, 1972.

### MICHENER PARK EXPANSION

A Board Building Committee recommendation was approved that the Board of Governors borrow from the Central Mortgage and Housing Corporation to build the second phase of Michener Park, the married student housing development. The loan will cover 90 per cent of the cost of constructing the project.

An Order in Council from the Provincial Cabinet must approve the mortgage financing before the loan can be finalized or construction begun.

Michener Park II as originally planned will consist of two 21-storey apartment towers and 88 two-bedroom low-rise housing units, supplying an additional 408 units, compared with 299 available in the existing development. Michener Park II will be built in stages because of the uncertainties concerning enrolment growth at the University.

### REVIEW OF LONG RANGE DEVELOPMENT PLAN

The Board Building Committee has authorized a review of the long range

development plan on the basis of an enrolment of 20,000. The original plan was based on a figure of 30,000.

The Board stressed that the 20,000 enrolment was purely a hypothetical figure. The purpose of reviewing the plan at this level is to fill the need for an interim plan on which to base certain immediate planning decisions.

The long range plan will be reviewed by the Campus Development Office in close association with University planners A. J. DIAMOND and BARTON MYERS.

#### STUDENTS' UNION COURSE GUIDE

An Executive Committee proposal was approved that the Board grant \$6,500 to the Students' Union for the 1971-72 *Course Guide*. Last year's grant was \$4,000.

Another grant requested by the Students' Union, for \$4,000 to partially cover the administrative costs of the 1972 Freshman Orientation Seminars will be considered at the next meeting of the Board Executive. However, it appears, according to the Executive, that the University may not be able to continue its support of this program.

#### AFFILIATION WITH FORT SASKATCHEWAN HOSPITAL

An affiliation agreement was approved between the University's School of Nursing and the Fort Saskatchewan General Hospital.

This is one of several agreements between the University and hospitals in the Edmonton area by which nursing students are introduced to a variety of health care situations.

#### COST REDUCTION HOPED FOR IN UTILITY BILLS

Electrical energy costs for the campus in 1972-73 are budgeted at approximately \$1,000,000. Heating costs are budgeted at

approximately \$700,000. Water costs are budgeted at approximately \$370,000.

The Department of Physical Plant has commenced study of the present concept of continuous operation of heating and ventilating systems with the intent of shutting some equipment down at nights, on weekends and holidays. By such procedures as restricting fresh air intake during these periods, heating costs can be reduced and electrical costs for running fans will drop.

A considerable reduction in electrical energy costs would be achieved if all staff and students would ensure that lights were shut off in rooms when these are to be unused for a period of longer than about one-half hour. With a \$1,000,000 light bill to pay, a 10 per cent reduction would mean a \$100,000 saving. Everyone is asked to help in reaching or even exceeding this saving. As a side benefit it will help conserve this province's dwindling natural gas supply and help reduce pollution.

#### SENATE

By FOLIO Staff

The University of Alberta Senate met Friday, February 25, 1972.

#### JOURNALISM AWARD

GORDON MONTE KEITH, Editor and Publisher since 1969 of the *Sedgewick Community Press*, has been named the first recipient of the F. P. Galbraith Memorial Award.

The award was instituted in memory of the late F. P. Galbraith, former Publisher of the *Red Deer Advocate* and Chancellor of this University until May, 1971. It provides an Alberta working journalist the opportunity to attend The University of Alberta as a special student for one session.

Mr. Keith was born in Regina, Saskatchewan in 1933. He has lived in Alberta since 1948 and has worked at the *Sylvan Lake News*, the *Rimbey Record*, and the *Stettler Independent*. He was Publisher of the *Castor Advance* and Publisher-Editor of the *Sylvan Lake News* before accepting his present position.

Mr. Keith says he has been concerned by the trend of people leaving rural communities for urban centres, and he feels a strong rural press can make people living in rural areas more aware of the advantages of their way of life. In an effort to broaden his opinions and find solutions to agricultural problems, he plans to study agriculture and political science while at the University.

#### TASK FORCE ON TENURE ESTABLISHED

Members approved a proposal that a Senate task force be established to acquaint the public with the true meaning of tenure, to seek public

input on the question of tenure, and to report its findings to the appropriate University body.

#### HONORARY DEGREES

The Senate voted in favor of a recommendation that Doctor of Science and Doctor of Literature be approved as honorary degrees. They will be awarded by the University on the same criteria as LL.Ds.

#### THE ROLE OF THE SENATE

Unanimous approval was given to the report submitted by the Committee to Study the Role of the Senate.

The report included the following recommendations.

##### Senate Activity

1. The Senate should promote freer dialogue between the University and the wider community by acquiring and providing to the community information about the University and its functions, and by acquiring and providing to the University information about related public concerns. Better two-way communications and understanding could be achieved in a number of ways:

(a) by encouraging individual members to arrange for and conduct meetings in their own areas;

(b) by arranging public seminars, panel discussions, and forums;

(c) by utilizing the media, particularly radio and television, in order to increase the Senate's outreach;

(d) by greater utilization of the various public relations facilities on the campus;

(e) by conducting poll surveys where it is necessary to measure public opinion;

(f) by establishing commissions on aspects of the University that appear to be of public concern, and holding hearings in communities throughout the province;

(g) by encouraging public participation in the University's cultural activities, and by involving the public to a greater extent in the use of University facilities;

(h) by encouraging participation of Senate Alumni;

(i) by encouraging public submissions and briefs to the Senate.

2. In order to be able to better interpret the University to the public, the Senate should analyze and evaluate the policies, objectives and guiding philosophies of the University, and should take an active interest in current controversial issues involving the University. It should conduct objective studies on such matters, and study relevant university policies and practices throughout Canada.

3. The Senate should establish an orientation program for new Senate members so that they may participate more effectively.

4. The Senate should analyze contemporary societal problems and trends that tend to

influence the role of the University, co-ordinate other efforts in this regard, and propose possible solutions.

5. The Senate should forward reports and recommendations concerning matters that it has studied to the appropriate governing bodies of the University as stipulated in The Universities Act, using its resources to pursue such issues until it is satisfied that suitable action has been taken. It should also encourage indirect and informal contact with other University governing bodies in order to achieve better communications with them.

#### **Senate Membership**

The report asked that no change be made for the present in the general composition of the Senate, but that the Senate remain sensitive to the desirability of having wide representation.

#### **Honoraria**

It was recommended that "members of the Senate receive no payment beyond the actual expenses for attending regular meetings and participating in committee work, but that either a member or non-member who is requested to undertake work of a professional nature receive the appropriate professional fee for his services. Moreover, that where members are requested to undertake exceptionally heavy duties connected with projects of the Senate, the Executive be authorized at its discretion to arrange for the payment of an honorarium."

#### **Structure and Function**

Members agreed the Senate "should be chiefly a deliberative body, meeting only two or three times a year for two or three days at a time, possibly in conjunction with University convocations. Its meetings should be designed to provide a forum for public exposure and examination of matters of concern to the public and the University."

The report noted that the Senate has already begun to rely on its Executive and an *ad hoc* type of committee structure rather than on a number of standing committees. It was agreed that task forces, with immediate tasks to perform, would be more effective than standing committees, particularly if they were guided by a strong Executive.

#### **Staff**

The report also recommended that a full-time Executive Officer, with appropriate secretarial assistance, be appointed. The duties of the officer would be:

- (a) to be a key resource person for the Senate, its Executive and committees;
- (b) to see that research is carried out;
- (c) to maintain contact with public bodies and the mass media;
- (d) to expedite the referral of matters of concern to the Senate to the appropriate

University bodies, and to report back to the Senate regarding the status of each such proposal, and the action that has been taken;

(e) to carry out the general administrative duties connected with meetings and minutes of the Senate.

Appointment of an Executive Officer will be subject to approval by the Board of Governors.

### **SUMMER SCHOOL IN ROME**

The University of Alberta's Summer Session courses in Rome were introduced in 1967, primarily because G. HERMANSSEN, Professor of Classics, was concerned about Canada's lack of facilities for studies in antiquity. "There were 22 academies in Rome," he says, "but Canada had none. Since the British Academy was empty three months of the year, we made arrangements to rent it."

Scholars from across Canada take advantage of the Rome Summer School. "Faculty and students using the Academy are primarily from Alberta, Laval, Ottawa, British Columbia and McMaster Universities, although anyone undertaking legitimate Roman scholarship can use the Academy," Dr. Hermansen says.

This year four courses will be taught: "Roman archaeology and civilization," "The art of the baroque in Rome," "Topics in papal history," and "L'histoire dans l'antiquité." In addition archaeological studies will be carried out at Monte Irsi in southern Italy where The University of Alberta is excavating this summer under the direction of A. M. SMALL, Assistant Professor of Classics.

The Summer Session courses in Rome have the same value as those taught on campus. Classes are limited to 25 students and stress lecture-excursions. They are organized to leave students as much time as possible for private study and sightseeing. The course fees are \$200; flights, excursions and accommodation are extra, although they are provided at reasonable rates. This year the Summer School will be held between July 4 and August 15. The closing date for applications is April 1, and inquiries should be directed to Dr. Hermansen at Room 251 Arts Building, telephone 432-3295.

### **PEOPLE**

■ YAR SLAVUTYCH, Associate Professor of Slavic Languages, attended the Comparative Literature Symposium at Texas University in Lubbock where he read a paper on Ernest Hemingway in Ukrainian literature.

■ The Dominion Archivist of Ottawa, W. I. SMITH, has recently extended an invitation to VIOLET ARCHER, Professor of Music, to submit all materials related to her career as composer

for placement in the National Archives.

■ JAMES PARKER, University Archivist, was re-elected for a second term as President of the Historical Society of Alberta at its annual meeting recently. W. R. SAMPSON, Assistant Professor of History, was elected Vice-President, and G. A. MUTHALL, Director of Administrative Data Processing, was appointed Public Relations Officer.

■ MICHAEL JACKSON, PhD candidate in Political Science, attended the second annual meeting of the Association of the Scientific, Technological, and Engineering Communities of Canada (SCITEC) in Ottawa. Mr. Jackson was re-elected to a seat on the governing council of SCITEC as one of two student representatives.

■ IVAN I. RUDNYTSKY, Associate Professor of History, was guest lecturer at the Institute of Soviet and East European Studies of Carleton University in Ottawa, when he spoke on the Ukraine in Russian and Soviet historiography.

■ ALLAN M. EDWARDS, Associate Clinical Professor of Medicine, was one of the organizers of the Prairie Provinces Meeting of the American College of Physicians, held last week in Winnipeg. The regional meetings have been held since 1930, but this year is the first in which the Canadian College of Physicians and Surgeons have been joint sponsors with the American College. Dr. Edwards is the Alberta Governor for the American College of Physicians.

### **BOOKS**

*Liber Poenitentialis* by Robert of Flamborough has been critically edited by the Reverend FRANCIS FIRTH of Saint Joseph's College and published in Toronto by the Pontifical Institute of Mediaeval Studies.

### **NOTICES**

#### **SCIENTIST TO LECTURE ON CHINA**

J. TUZO WILSON, Principal of Erindale College and Professor of Geophysics at the University of Toronto, will be visiting the campus on March 17 when he will present a public lecture entitled "A scientist in China."

In November, 1971 Dr. and Mrs. Wilson spent three-and-a-half weeks in China as guests of the Academy of Sciences of China. They visited institutes, universities, libraries, factories and many places of beauty and interest, in Peking, Sian and Canton, and even travelled to Yenan in the far north and to Shanghai, Nanking and Hangchow along the east coast. Dr. Wilson had last been in China in 1958 and he was able to renew many acquaintances made at that time.

In his lecture Dr. Wilson will discuss the

whole trip, emphasizing research in the earth sciences in China, and changes noted since his previous visit which he described in his book *One Chinese Moon*.

The lecture will be held at 8 p.m. on March 17 in Room 126 of the Physics Building. It is sponsored by the Royal Society of Canada, of which Dr. Wilson is First Vice-President.

#### ST. CECILIA ORCHESTRA TO EXPAND TO FULL SYMPHONY

The St. Cecilia Orchestra of the Department of Music has announced its plans to enlarge to a full symphony orchestra this fall. All members of the University community, including family members aged 17 or over, are eligible to audition.

Anyone who plays an orchestral instrument—flute, oboe, clarinet, bassoon, french horn, trumpet, trombone, tuba, percussion, violin, viola, cello, or double bass—and who would like to audition, should obtain an application form from the Department of Music, 348 Arts Building, telephone 432-3263. These should be completed and returned before March 23 to MICHAEL BOWIE, Assistant Professor of Music, 348 Arts Building, telephone 432-4528. Enquiries should also be directed to Professor Bowie.

#### AWARDS HANDBOOK PUBLISHED

The first edition of a new handbook, *Awards for Commonwealth University Staff*, has been published in London by the Association of Commonwealth Universities.

The replacement of the Association's former publication, *United Kingdom Postgraduate Awards*, by two Commonwealth-wide companion volumes intended respectively for established university staff and for postgraduate students, was recommended by a committee of university executive heads drawn from the different areas of the Commonwealth. The new handbook represents the first stage in the implementation of this recommendation. It will be followed late in 1972 by its companion volume, the first for postgraduate students. Revised editions of both will be published in alternate years.

The present handbook contains over 300 entries describing fellowships, visiting professorships and lectureships, travel grants, and other forms of financial assistance available to teachers and administrators at Commonwealth universities who wish to undertake research, make study visits, or teach for a limited period at a university in another Commonwealth country. An appendix provides a brief outline of the services offered by organizations which encourage the movement of staff between these countries.

The handbook costs 60 new pence by surface post, or £1.10 by second class airmail. It is available from the Association of

Commonwealth Universities, 36 Gordon Square, London WC1H 0PF. A copy has been placed in the University Library.

## **Election of a member of the academic staff to membership on the Board of Governors**

*The following material has been received from JOHN NICOL, Secretary to General Faculties Council.*

At its meeting on February 28, 1972, the General Faculties Council approved the following procedure for the election of a member of the academic staff to membership on the Board of Governors.

*The Universities Act* provides that two members of the Board of Governors of The University of Alberta shall be members of the academic staff of the University, nominated by the General Faculties Council.

One of the two current members will retire on June 30, 1972, and is to be replaced.

At its meeting on September 27, 1971, the General Faculties Council agreed that the selection of members of the academic staff to the Board of Governors should be by a general ballot sent to all full-time continuing staff members, with the understanding that persons so selected shall be nominated by General Faculties Council for appointment by the Government.

The Secretary will now conduct an election. A request for nominations will be mailed to all eligible members of the academic staff early in March. It is expected that the election procedure will be completed early in April.

Members of the academic staff who do not receive ballots sometime in March, and who believe they are eligible to participate, are asked to notify JOHN NICOL, Secretary to General Faculties Council, Room 3-3 University Hall (Extension 4954).

### **1. ELECTORAL LIST**

In the preparation of an Electoral List the requirement of "all full-time continuing staff members" shall be interpreted to mean those of the following who are not on leave of absence and who can be reached by mail addressed in care of their departments, and who can reply by dates to be established:

1.1 Full-time members of the teaching staff employed without definite term by the Board of Governors of The University of Alberta.

1.2 Other full-time members of the University staff employed without definite term by the Board of Governors of The

University of Alberta, in positions to which academic status has been assigned.

1.3 Full-time members of the academic staff, as described in 1.1 and 1.2 above, employed for a probationary period.

### **2. PRIMARY NOMINATIONS**

In the election of a member of the academic staff for nomination by General Faculties Council as a member of the Board of Governors it will be necessary first to receive nominations.

Since not all members of the academic staff are members of General Faculties Council, the appropriate method of nomination will be by ballot and by mail, to be completed before a date to be established.

The Secretary to the General Faculties Council will arrange for ballots to be sent and received by mail.

The Secretary will mail a nominating ballot to every listed member, who is not on leave of absence, plus instructions for completing and returning it.

Each listed member may make one nomination.

The ten members receiving the most nominations shall become nominees for election.

The Secretary will obtain the assurance of each nominee that he will serve if elected, and the Secretary will delete the nominee if he does not wish to accept the nomination.

After nominations have been closed, voting will take place before a date to be established.

### **3. ELECTIONS**

After nominations have been closed, voting mail will take place.

The Secretary will prepare the required number of printed ballots in the form of a list of nominees and blank spaces, so that the voter can check the nominee he desires.

The ballots will be distributed by the Secretary and accompanied by full instructions for marking and returning by the required date.

To ensure against votes being cast by other than listed voters, ballots will be returned in specially recognizable, self-addressed, return envelopes with the name and address of the

Secretary, which envelopes will contain a space for the voter's signature.

The poll will be closed on a date to be established.

The candidate receiving the greatest number of votes cast will be elected.

In recording the ballots cast the Secretary will ignore blanks, and will not credit illegal votes to any nominee.

If in unfolding the ballots it is found that two or more filled-out ballots are folded together, they will be recorded as illegal votes.

If a ballot includes votes for too many candidates it will be recorded as an illegal vote.

Unintelligible ballots will be treated as illegal votes.

If a ballot is enclosed in an envelope which is not signed by the voter, it will be recorded as an illegal vote.

If a ballot is identifiable as cast by a person not entitled to vote, it will be excluded in determining the number of votes cast.

Proxy voting will not be permitted.

The Secretary will report to the Chairman of General Faculties Council the name of the candidate with the greatest number of votes cast.

General Faculties Council will nominate this candidate for membership on the Board of Governors.

### **4. GENERAL**

The Executive Committee of General Faculties Council will be the sole judge of all questions arising which are incidental to the voting or to the counting of votes.

After completion of the election the ballots returned in the primary nominations and the election will be retained by the Secretary for one month and then destroyed.
